পৰিৱেশ গৱেষণা আৰু মূল্যায়ন কেন্দ্ৰ

[An ISO 9001 : 2008 Certified Organisation]

REF. NO.:- EREC/MVMSSS/2013/O-082 (A)
Date: 13/07/2013

This is to certified that the School Building of "MAHARISHI VIDYA MANDIR SENIOR SECONDARY SCHOOL", situated at Silpukhuri, Guwahati-781003, Kamrup (M), Assam, is duly inspected by us and subsequently the quality of concrete (structure) have been checked by NDT equipments, which is found safe under the category of "Standard" quality.

Now considering the quality of concrete i.e. safety of structure, we are in the opinion that the intermediate floors have the sufficient strength as on date and it is capable for bearing the load even after laying/ fixing the marble slab as floor finished. However it is advice that before fixing the marble slab (or tiles) the existing floor top (cement plaster) should be removed carefully by skill mason.

Date: 13/07/13
